I can't tell from the document. Is this a draft going out for public comment? I have a draft NoA for a final tox assessment based on the title, but later in the document it talks about draft values.

Yes, and it would need to be short. And go to the FR asap. ORD doesn't have much experience in this arena.

We will try to pull together a first draft for them to use, but not sure we know everything to get it done. For example, is the NOA to be signed by AAW?

Hi Alex,

It **\*looks\*** like ORD needs a template for the FR document to announce the availability of the tox values. That's available at <https://intranet.epa.gov/adplibrary/adp-templates/index.htm#nonrule>. If they need something more, please ask them to touch base with us ASAP. I don't know that we have the bandwidth to write the document for them, but the templates provided should give ORD the basic information needed re: addresses, etc., except that they also need to include COVID-related language regarding the Docket Center ("*Due to the public health concerns related to COVID-19, the EPA Docket Center (EPA/DC) and Reading Room is closed to visitors with limited exceptions. The staff continues to provide remote customer service via email, phone, and webform. For the latest status information on EPA/DC services and docket access, visit <https://www.epa.gov/dockets>.*").

Does this help?

Best,  
Peter

Jennifer,

What are the “other processes?”

Where does it say that this assessment must be noticed with an FRN?

Regardless, we should be able to post a pre-publication copy ASAP.

On Jan 8, 2021, at 4:52 PM, Hoverman, Taylor <[hoverman.taylor@epa.gov](mailto:hoverman.taylor@epa.gov)> wrote:

All,

Great news! To address the concern raised yesterday, OMB has agreed to conduct expedited review of the PFBS toxicity assessment to help make this happen! I hate to do this to you on a Friday evening, but OMB needs this to go into ROCIS today. I am attaching the redline that included OCSPP's edits. I accepted edits to spacing only and kept all other changes in redline and made 1 editorial change to incorporate OCSPP's comment. The same change was made on pages 77 and 79.

Since we have a window of opportunity to get this across the finish line, I appreciate your help doing so. Please give me a call if you need any additional help from me to get this done.

Thank you all in advance!

Taylor, Alex and I spoke last night and you should connect with her. I was not aware of the discussion with the Administrator and I believe he did not have complete information in that discussion.

ORD will not be able to make this change and have this document go out next week. ORD's document for PFBS was considered final when the OCSPP comments were received. The type of changes OCSPP proposes would require us to go through the whole process of intra/inter-agency review and WH Technical workgroup review which will take anywhere from 6-8 months.

Happy to talk further

Subject: RE: PFAS Tox Values: OCSPP Review

Thanks for looping me in, Alex.

Yes, Tala's emails are correct. Since the Administrator has already weighed in, I assume the remaining step is to incorporate OCSPP's edits. I understand that once these changes are incorporated, the PFBS final toxicity assessment will be ready to post online.

The Administrator has a PFAS interview next Thursday. The PFAS regulatory determination should be published next week, and since this is so close to completion, I would really like us to get this tox assessment finalized before then as well, so he can highlight both actions in that interview.

This week, I have seen both a thank you note to ORD + R5 from Ohio EPA for assistance with PFAS work (Great work, ORD + R5!), as well as this InsideEPA article:  
<https://insideepa.com/daily-news/new-jersey-dep-chief-mccabe-faults-epa-lack-pfas-class-policy>  
<<https://gcc01.safelinks.protection.outlook.com/?url=https%3A%2F%2Finsideepa.com%2Fdaily-news%2Fnew-jersey-dep-chief-mccabe-faults-epa-lack-pfas-class-policy&data=04%7C01%7C%7B587c096eedc4c2737c308d8b33c3e6f%7C88b378b367484867acf976aacbeca6a7%7C0%7C0%7C637456418606001285%7CUnknown%7CTWFpbGZsb3d8eyJWljoImC4wLjAwMDAiLCJQIjoiV2luMzIiLCJBTiI6IjE1IiwWwIiLCJXVCi6Mn0%3D%7C1000&sdata=n1OVFenTviY4UcyTHdDgR9d9nPdDTIKTIFJB4pV%2FQZc%3D&reserved=0>>

I think next week's interview is a great opportunity for the Administrator to highlight the hard work across all EPA program offices and regions addressing PFAS and would really love if we could quickly get OCSPP's edits incorporated to add this tox assessment to the list of accomplishments.

If this is not possible, please call me today to discuss why additional time is absolutely necessary.

Thanks so much!

Subject: PFAS Tox Values: OCSPP Review  
Importance: High

Sam/Betsy,

As you know OCSPP Toxicologists reviewed the PFBS and GenX draft documents; our reviews/insights are attached in format appropriate for docketing (as I understand this is something the Administrator has requested).

Also attached are the documents that include OCSPP proposed in-line edits to address the OCSPP Sr Toxicologists review, specifically relative to consideration alternative UFs, to support presentation of a range of UFs (and therefore RfDs), which I also understand the Administrator requested be included.

Please let me know if you have questions.
